

Combating Homegrown Terrorism (Israeli Aspect)

Do you know how to deal with homegrown terrorists?

A Suicide Bomber attack in Wal-Mart?

Are they already in our own backyard?

How can a future attack be prevented?

The answer to these and other questions can be found in this seminar.

This seminar will be delivered by the #1 expert in the world in the field of counter terrorism, Mr. Doron Benbenisty. Doron is the owner of CRI – Counter Terrorism Training School based in Las Vegas, Nevada. He developed the first Counter Suicide Bomber and Car Bomb program in the world while serving in the Israeli Special Forces as an operator and instructor. This course is based on his first hand knowledge serving in Israel but also it takes into account other homegrown terrorist cases throughout the world and in the US.

Unfortunately, there is a new trend towards this type of terrorism in the US and the West in general. The main goal of this seminar is to be proactive in dealing with this trend. Currently, Doron's program has been intensively implemented in Israel, which is why the number of attacks there have been greatly reduced to almost zero.

Seminar Topics:

△ The world wide problem of homegrown terrorism	△ Intel operations
△ Homegrown terrorist profile	△ Islamic/non-Islamic homegrown terrorism
△ Female homegrown terrorist profile	△ Middle Eastern/non-Middle Eastern ethnicity
