General Workforce Funding Process for Non-Nevada Students

Nevada has a reciprocity agreement with Arizona, California, and Utah with regard to Workforce funding. This enables a participant that does not live in the direct vicinity to attend training at our location in Nevada.

The process can be a little different, depending on the state, but the following would be the general steps that a potential student should expect.

1. Contact a local Workforce office and enroll in WIOA Title I services.
2. An orientation class for their state will be scheduled, which the participant must attend.
3. A career coach is assigned after orientation.
4. The participant would ask to attend our course in Nevada and present the reciprocity letter from the State of Nevada.
5. Since we are only listed on Nevada's Eligible Training Provider List (ETPL), the career coach will need to visit Nevada's site:
<https://www.employnv.gov/vosnet/default.aspx>
6. Once there, click 'Search Educational Institutions' and type 'CRI'.
7. The new page will have only one listing, which is 'CRI Counter Terrorism Training School'. Click on that link.
8. This new page will list our three programs. Click on the link to the chosen program. All program information will be listed on this page, with regard to tuition and any other costs.
9. If the career coach approves a CRI course, then the next step would be to contact our school for a course proposal for that individual student.
10. Admin at CRI would then create a proposal for the student and send it back to the career coach for approval.
11. After the career coach approves our proposal, CRI would then send the student enrollment forms for the chosen course. Processing time is usually one to two days, then a student will be sent a welcome letter with details on course start and end times, personal items needed, etc. The student is now officially signed up for the course.

If you should have any questions, please contact CRI Admin and we will be glad to help.
